

"While researching local builders we toured several of the homes built by Donny Tuberville and Howard DeLee. We felt confident that they could help us build the home we envisioned to fit our expanding family. One of the best aspects of working with Deville is their "hands on" abilities. Not only are they efficient and well connected contractors, they are also skilled carpenters and masons. This was very evident throughout the process as they were able to help us make decisions because they understand first hand the process of building and were able to "hand craft" areas in our house. They did much of our stone work themselves, not only doing an excellent job but also saving us money. They remained patient as we made changes during the building process and were always conscious of helping us stay within our budget. We would absolutely turn to them again with no hesitation if we had any other building needs."

— Dr. Greg & Amy Whorton

"Our experience with Deville Builders was exceptional! They have excellent ideas and suggestions, yet are extremely easy to work with and willing to go the extra mile to satisfy their customers completely. The finished product resulted in excellent quality with expectations not only met, but exceeded! We are confident to recommend Deville Builders as an excellent home building option. Our venture with Deville Builders began as a business relationship, but through the process, not only gained a beautiful home, but are now able to call Howard and Donny friends."

Crafting your perfect home.

Deville Builders Inc. has been a partnership since 1989. Our combined 60 plus years of hands on experience allows us to provide superb professional service to our customers. We provide services from plan designing, interior decorating, and architectural landscaping. Through our years of experience, we have developed good working relationships with material suppliers and professional subcontractors. These relationships allow us to build a distinctive high quality home while also getting the most for your budget. We believe that your home is a reflection of your lifestyle. We, at Deville Builders, give you the freedom and resources to put your personal touch on the home of your dreams. Our hands on experience eliminates most job site problems and mistakes. This results in a more cost effective and pleasurable building experience. Customer service is

our #1 priority. We credit the quality and craftsmanship of our homes to our team of professionals and the success of our company to our satisfied customers.

"Donny Tuberville and Howard DeLee built our home almost 17 years ago. They were easy to work with, cooperative, open to changes along the way, and able to work within our budget. We felt at the time and still feel that their work is quality and as testament to that, has stood the test of time. We have not had to spend our own money to fix problems resulting from poor construction or materials. We feel selecting Deville Builders is a wise choice in making an important investment."

— Donald and Roberta Watts
